

Maintenance Millwright

IGPC Ethanol Inc. is accepting resumes for the position of Millwright. Reporting to the Technical Services Manager or designate, the Millwright will maintain the plant processing equipment, troubleshoot operations, develop solutions, and clean tools and equipment for optimal production condition. The successful candidate will be responsible for providing overall mechanical support to our process facility and plant systems, always focused on continuous operations.

With your significant manufacturing knowledge and skilled trade competencies, the Millwright will support a diverse array of tasks, working with all departments while fostering a collaborative and helpful environment.

Minimum Qualifications and Skills:

Qualifications

- Must have Grade 12 diploma.
- Hold an Industrial Mechanic/Millwright C of Q or be eligible to achieve C of Q within 1 year.
- Possess strong mechanical aptitude.
- Electrical experience
- Demonstrate an ability to successfully interact with all levels of the organization as well as the public.
- Demonstrate a proficiency of the English language in reading, writing, and speaking.
- Knowledge of a computer-based production plant will be a definite asset.

Skills

- Demonstrated:
 - Ability to meet schedules and commitments with quality results.
 - Interest/knowledge of the chemical process with adherence to quality standards.
 - Focus and support of all Health, Safety, and Environmental procedures.
 - Strong attention to detail.
 - Strong organizational skills including the ability to plan prioritize and execute work assignments.
 - Excellent learning, analytical and problem-solving abilities.
 - High degree of self-confidence in own abilities.
 - Orientation towards continuous improvement and a strong sense of responsibility.
 - Excellent interpersonal skills.
