

Engineer in Training (EIT)

We are accepting applications for one (1) Engineer in Training (EIT) position.

The EIT will work under the supervision of the Technical Services Manager in a key role to support different IGPC departments.

The EIT will strive to improve processes while maintaining and updating all relevant documentation, such as P&ID's, SOP's, etc.

The EIT position acts as a subject matter expert and actively participates in all environmental aspects regarding plant operations. Because of the EIT's subject matter expertise, this individual will support Operations with process improvements, plant shutdowns, and special projects.

Minimum Qualifications and Skills:

- Must have a degree in Chemical Engineering or related field.
- Must be eligible for PEO status
- Demonstrated:
 - ability to work independently and prioritize workload,
 - effective communications with employees,
 - excellent attention to detail,
 - analytical and problem-solving skills, and
 - proficiency in all forms of written communications.
 - strong mechanical aptitude.
- Working knowledge of occupational health and safety legislation and regulations.
- Excellent multi-tasking and organizational skills.
- Working knowledge in the use of Microsoft Office and AutoCAD.
- Proficiency in chemical engineering software such as Matlab, Aspen plus, Chemcad, etc. is a definite asset.

If you are interested in viewing a complete copy of the job description, please contact Human Resources.

Selection Process

- Online Testing Module
 - Panel Interview
- **Please note only successful candidates will progress to the following selection phase.

**All interested candidates must submit a resume to resumes@igpc.ca no later than August 25, 2023.
Please reference "EIT" in the subject line.**
